Sir:

REQUEST FOR CORRECTED PATENT APPLICATION PUBLICATION
UNDER 37 C.F.R. § 1.221(a)

On November 25, 2004, the U.S. Patent and Trademark Office published the above-identified Application No. 10/621,534 ("the '534 application"), as Publication No. US 2004/0234473-A1. Applicant has found an error in the printed publication and thus, pursuant to 37 C.F.R. § 1.221(a), Applicant respectfully requests republication of the application with correction of the error, which is described in detail below. Also in accordance with 37 C.F.R. § 1.221(a), the Office is authorized to charge the undersigned's deposit account no. 06-0916 in the amount of \$430.00 to cover the cost of the re-publication fee.

The present application was unintentionally filed without page 19 of the specification. However, the present application is a continuation under 37 C.F.R. § 1.53(b) of Application No. 09/618,031, which was incorporated in the present application by reference. (See, *Rule 53(b) Transmittal Letter*, filed July 17, 2003, amendment at p. 2.) Thus, the missing subject matter of page 19 has been incorporated by reference and is properly part of the pending application. To make this even more clear, Applicant is concurrently filing a Preliminary Amendment adding the missing subject matter to the present application. Accordingly, Applicant requests that page 19 be inserted and the application be republished with this subject matter therein. The point of insertion of page 19 is indicated in red ink on the relevant page of the marked-up copy of the published application attached hereto.

The omission of specification page 19 may affect the public's ability to appreciate the technical disclosure of the patent application publication or to determine the scope of provisional rights, particularly because the missing page contains several claims. Accordingly, Applicant respectfully requests that the Office republish the application with the correction to include the text of specification page 19.

Further, Applicant requests that the Office forward to Applicant a copy of the corrected published application, or at least a notification of the occurrence or predicted occurrence of the corrected publication once it has been corrected.

Applicant believes that no Petition is due in connection with this Request.
However, if any Petition or additional fee is due, please grant the Petition and charge
the fee to our Deposit Account No. 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.

- (2) Marked up copy of published application no. US 2004/0234473 A1

a C₃ to C₂₀ alkyl radical;

- fatty alcohols comprising at least 12 carbon atoms;
- cyclic hydrocarbons;
- aromatic hydrocarbons;
- primary, secondary and tertiary amines; and
- silicone oils.

13. A composition according to Claim 12, wherein said hydrocarbon-based oils of animal origin are perhydrosqualene.

14. A composition according to Claim 12, wherein said hydrocarbon-based plant oils are chosen from liquid triglycerides of fatty acids and of glycerol, wherein the fatty acid chains may be linear or branched, saturated or unsaturated, and may have varied chain lengths.

15. A composition according to Claim 12, wherein said hydrocarbon-based plant oils are chosen from wheatgerm oil, sunflower oil, corn oil, soybean oil, marrow oil, grapeseed oil, blackcurrant seed oil, sesame oil, hazelnut oil, apricot oil, macadamia oil, castor oil, avocado oil, karite butter, sweet almond oil, cotton oil, alfalfa oil, poppy oil, pumpkin oil, evening primrose oil, millet oil, barley oil, quinoa oil, olive oil, rye oil, safflower oil, candlenut oil, passion flower oil, musk rose oil, and caprylic/capric acid triglycerides.
